Seezeitlodge Hotel & Spa

Gonnesweiler, Germany

At Seezeitlodge, subtle nods to nature show up throughout its 98 rooms and suites, translated in the use of simple materials. Take the Sweetheart suite, where a wooden bathtub in the bedroom offers views of Lake Bostalsee. Meanwhile, the Dream View suite's balcony hammock provides guests with another opportunity to harmonize with the outdoors.

The Foundation Hotel

Detroit

For the revival of a former firehouse into Detroit's Foundation Hotel, each one of the 100 rooms celebrates the city's renaissance by repurposing wood trim from abandoned buildings into an ornate feature wall. Vintage photos of local architecture have been transformed into striking inlaid art pieces, while hints of pink and blue pay homage to its Motor City roots.
