Since 1994, MPA has been delivering transformative architecture and interior design for residential clients throughout Michigan. Our practice is rooted in meaningful dialogue with the people we serve.

At MPA, we engage our clients with an open approach based on collaboration. Our designs go through deliberate stages of adjustment and refinement, always tested against the needs and aspirations of the project stakeholders. Through this inclusive process, MPA reaches a heightened understanding of the role each project plays in the lives of its clients. The design is better and more creative as a result of our collaboration and client-focused vision process.

MPA has won over 160 design awards, including 30 AIA Awards and over 75 Detroit Design Awards. MPA was named in Dwell's Definitive List of 100 Architects and Designers Worldwide and is one of 100 firms in the United States named in Interior Design Homes debut edition as Residential Leaders.
